

13 December 1978

MEMORANDUM FOR:

FROM:

SUBJECT:

Kampiles Task Force Report

STAT

1. In reference to your memorandum of 12 December 1978 and the attached DCI comments on the Kampiles Task Force Report Recommendations, the following comments are directed toward the Personnel Security recommendations.

2. Recommendation number 4 regarding Probationary Screening is designed to upgrade and enhance CIA personnel security procedures above the minimum standards established for the Intelligence Community by DCID 1/14. (In fact, DCID 1/14 does not even apply to all CIA employees). DCID 1/14 established for the Community a five year reinvestigation cycle (with no requirement for polygraph) while recommendation 4 establishes for CIA employees an initial 2 1/2 year reinvestigation and polygraph by Security as well as Career Service, Personnel and Medical review and updating prior to the employee progressing beyond his 3 year probationary period and being admitted into a CIA Career Service. Thus there is no impact of this internal CIA procedure on the Intelligence Community as a whole.

3. Recommendation 5 also deals with internal CIA matters, the requirement for access to Secret level material by CIA Industrial Contractors employees. The requirement for investigation and reinvestigation recommended has no counterpart in any existing Intelligence Community standards and thus is not in conflict with Community matters.
